CERTIFICATE OF PRODUCT APPLICATION AND SUITABILITY

This is to certify that **TECMA ADMIX CRYSTAL**, manufactured by **INDUSTRIAS QUÍMICAS SATECMA, S.A.**, is intended for use in concrete production in accordance with its Technical Data Sheet.

1. Required mixing water:

Regarding water demand in concrete mixtures, it is recommended to carry out preliminary tests during the concrete mix design phase to determine the optimum water content for the concrete. **TECMA ADMIX CRYSTAL** admixture typically reduces the required mixing water by approximately **5 to 20 liters per cubic meter**, depending on mix composition and site conditions.

2. Concrete Strength Class

TECMA ADMIX CRYSTAL is also suitable as admixture with cements for concrete production within **strength class C30/37**.
